Commissioner for Patents  
P.O. Box 1450

Dear Sir:

Enclosed for filing in the above-identified application is a Supplemental Information Disclosure Statement by Applicant (PTO/SB/08 equivalent) listing three hundred sixty two (362) references to be considered by the Examiner. As provided by 37 C.F.R. § 1.97(h), the filing of this Supplemental Information Disclosure Statement shall not be construed as an admission that the cited references are material to patentability. Additionally, inclusion on this list is not an admission that any of the cited documents are prior art in this application. Further, Applicant makes no representation regarding the completeness of this list, nor represents that better art does not exist.

In an abundance of caution, Applicant has also pointed the Examiner's attention to a number of commonly owned issued patents and pending applications. These references do not share a common priority claim but may include related subject matter. These cited references could potentially include prosecution history relevant to the currently pending claims.

In accordance to M.P.E.P. § 2001.06(c), a number of the references identified herewith correspond to the existence of litigation and other information arising from litigation. The owner of the patents and applications, Ben Huang, and his company, Winn, Inc., has pursued various infringers in a number of law suits. In particular, U.S. patent number 6,843,732 is involved in litigation in Winn, Inc., et al. v.
